

Monoblock Heat Pump Water Heater

HP200M1-U1 & HP250M1-U1

Model HP200M1-U1

Model HP250M1-U1

Features

Respect for the planet

Highly efficient compared to electric resistance or gas water heaters, complements Solar PV systems, runs only on electricity, and uses the natural refrigerant R290.

Lower running costs

The heat pump technology results in a 70-79% reduction in electricity compared to an electric-resistance water heater.*

Expansive operating range

Performance in most Australasian climates from -7C to 45C ambient air temperature.

Adapts to your life

Use the SmartHQ TM app on your smartphone to easily select from five modes to best suit your needs, allowing you to adjust heating to lower-cost periods, minimise energy use when you're on vacation, or prioritise solar energy to reduce grid-supply if you have Solar PV.

Low GWP Refrigerant

Our Heat Pump Water Heater uses R290 which has a global warming potential (GWP) of 3. Many heat pumps use R134A. R290 has a global warming potential that is 476 times lower than R134A. As many refrigerants are strong greenhouse gases, the use of refrigerants with low GWP is seen as a way to minimise the effect of refrigeration systems on global warming.

Longevity

Using patented technology with a triple layer protection creates a long lasting, acid and alkali corrosion resistant inner tank. The inner tank is tested to over 160,000 cycles to ensure durability over the expected lifetime.

Connected

Built in Wi-Fi module and SmartHQTM allows control of the appliance from anywhere. Change between five user modes at the tip of your fingers by opening SmartHQTM on your smartphone.

*Energy savings of 70-79% are based on Haier Monoblock 200L and 250L when compared to a standard electric storage water heater in Zones 1 to 5 in AS/NZS4234

Monoblock Heat Pump Water Heater

Model	HP200M1-U1	HP250M1-U1
Tank		
Total water capacity	195L	246L
Rated voltage/ frequency	220-240V/50Hz	20-240V/50Hz
PTR setting	700kPa	700kPa
Ingress protection	IPX4	IPX4
Hot & cold inlet connections	³ / ₄ " RP	³ / ₄ " RP
PTR connection	³ / ₄ " RP	³ / ₄ " RP
COP*@ 20°C/15°C	4.49	4.48
Power input of electric element	1.5kW	1.5kW
Rated power input of heat pump	0.43kW	0.43kW
Maximum power input of heat pump	0.75kW	0.75kW
Maximum power input of the appliance	2.25kW	2.25kW
Average heating capacity by heat pump	2.0kW	2.0kW
Default temperature setting	60°C	60°C
Heating range (with element)	35°C-75°C	35°C – 75°C
Heating range (heat pump only)	35°C-65°C	35°C-65°C
Refrigerant type / weight	R290/0.34kg	R290/0.34kg
Noise	43dB(A)	43dB(A)
Ambient temperature range	-7~45°C	-7~45°C
